PROFILE

Unity Game Developer and XR Engineer with **2 internships** and **10 shipped games**. Built **2 AR projects** and **1 VR app**. Competed in **5 national hackathons**. Core stack: **Unity (C#), AR Foundation, XR Interaction Toolkit, Photon PUN2**. **1st place** at Hack A Vation Gaming Hackathon. **9th nationally** at Odoo × CHARUSAT among 200+ teams. Shipped **FACADE** at Global Game Jam 2026 (IDC, IIT Bombay) in 48 hours. Delivers games and XR prototypes on time in fast-paced team environments.

TECHNICAL SKILLS

Game Engines & XR: Unity 2D/3D, AR Foundation, XR Interaction Toolkit, Photon PUN2, Oculus SDK, OpenXR, Unity VR (Android), Spatial Computing, Lighting & Baking, Shader Graph
Languages: C#, JavaScript, Dart, Python, C, C++
Web & Mobile: ReactJS, Node.js, Next.js, Flutter, Express.js, MongoDB, REST APIs
DevOps & Tools: Git, GitHub, GitHub Actions, Unity Version Control (Plastic SCM), TensorFlow, Figma, VS Code, Android Studio
Workflow: Agile/Scrum, Sprint Planning, Cross-team Collaboration, Rapid Prototyping

WORK EXPERIENCE

- Unity Game Developer Intern** *Onsite*
evoDART Studios Jan 2026 – Present
 - Built and shipped **3 hyper-casual Unity games** for Android and iOS; added object-pooling and asset-bundling that cut average scene load time by **30%** on mid-range devices, keeping players in the game longer.
 - Hit **2 sprint milestones per 2-week cycle** in a 4-person Agile team; worked closely with artists on animation pipelines, collision physics, and performance profiling.
 - Streamlined internal build tooling, cutting release time to Google Play and the App Store across each sprint cycle.
- AR/VR & Game Developer Intern** *Ahmedabad, Gujarat*
Ahura Technosoft LLP May 2025 – Aug 2025
 - Created **2 AR prototype modules** with Unity AR Foundation; cut client demo setup time from **2 hours to under 10 minutes**, helping the sales team move faster through presentations.
 - Produced **5+ wireframes and interactive UI prototypes** for web and mobile apps; daily stand-ups with a 3-member team reduced revision rounds from 4 to 2.
 - Built a VR walkthrough experience for Android headsets that became part of the client-facing product demo, improving stakeholder confidence in the project.

PROJECTS

- AR/VR Real Estate Walkthrough** | *Unity, C#, AR Foundation, XR Interaction Toolkit* [itch.io] *May – Jun 2025*
 - Built a property tour app with teleportation locomotion and real-time lighting; released on **Android and iOS** for **2 real-estate clients**, removing the need for physical site visits before purchase decisions.
- Mavericks Battleground** | *Unity 3D, C#, Photon PUN2, Multiplayer Networking* [itch.io] *Dec 2024 – Present*
 - Real-time battle royale with **10+ concurrent players** via Photon PUN2; kept network latency under **100ms** across live sessions through RPC optimisation and state sync management.
- Lowxena – Multiplayer Card Game** | *Unity, C#, Photon PUN2, Custom Game Logic, WebGL* [itch.io] *2025*
 - Conceived and coded a **fully original card game ruleset** – no borrowed mechanics – with real-time online multiplayer via Photon PUN2; live and playable with friends at lowxena.dharmikgohil.art.
- Sky Pilot – Drone Training Simulator** | *Unity 3D, C#, Gamepad Input System, Physics Simulation* [itch.io] *2025*
 - Created a drone flight simulator with realistic physics and full **gamepad controller support**; controls closely match real-world drone handling for practical training use.
- FACADE – 3D Horror Adventure Game** | *Unity 3D, C#, Single-Player, Narrative Design* [itch.io] *Jan 2026*
 - Shipped a **single-player 3D horror-adventure** at Global Game Jam 2026 (IIT Bombay IDC) in **48 hours**; combined combat, environmental puzzles, and story around the theme “Mask” – complete and polished from start to finish.

ADDITIONAL GAMES

5+ more Unity games on itch.io across puzzle, platformer, and arcade genres – each scoped and delivered solo from scratch. Full list at dharmikgohil.itch.io.

EDUCATION

•Charotar University of Science and Technology (CHARUSAT)

B.Tech – Information Technology | CGPA: 8.2 | 3rd Year

Anand, Gujarat, India

Jun 2023 – Jun 2027

ACHIEVEMENTS & HACKATHONS

- 1st Place – Hack A Vation Gaming Hackathon (Dec 2024):** Won the game development track among **30+ teams**; planned, built, and submitted a complete Unity game within the competition window.
- Top 9 National Finalist – Odoo × CHARUSAT (Feb 2025):** Finished **9th out of 200+ teams nationwide** with an ERP solution on the Odoo framework; competed against teams from top engineering colleges across India.
- Global Game Jam 2026 – IDC IIT Bombay (Jan 2026):** Took part in GGJ 2026 at IIT Bombay's Design Centre; shipped *FACADE*, a complete 3D horror game, in a **48-hour** on-site jam.
- IIT Bombay Techfest 2025 – Ubisoft Game Challenge:** Received recognition at Asia's largest tech festival in a game development challenge run in collaboration with **Ubisoft**.
- 1st Rank – Code Ride Clash, CDMI (Jun 2023):** Took top spot in a C/C++ programming contest across **multiple university-level** rounds.

CERTIFICATIONS & TRAINING

- AWS Cloud Practitioner Essentials** – Hands-on labs covering EC2, S3, VPC, IAM, CloudFront, Lambda, Step Functions, SQS/SNS, and Elastic Beanstalk.
- Unity Game Development (Self-Directed)** – 10+ shipped projects covering Unity 2D/3D, Photon PUN2 multiplayer, AR Foundation, and XR Interaction Toolkit.
